LOK SABHA

The following Bills were introduced in Lok Sabha on 18th December, 2009:—

BILL No. 136 OF 2009

A Bill to amend the Transplantation of Human Organs Act, 1994.

WHEREAS it is expedient to amend the said law enacted by Parliament relating to regulation of removal, storage and transplantation of human organs for therapeutic purposes and for prevention of commercial dealings in human organs;

AND WHEREAS Parliament has no power to make or amend laws for the States with respect to any of the matters aforesaid except as provided in articles 249 and 250 of the Constitution;

AND WHEREAS in pursuance of clause (1) of article 252 of the Constitution, resolutions have been passed by all the Houses of the Legislatures of the States of Goa, Himachal Pradesh and West Bengal to the effect that the aforesaid Act should be amended by Parliament.

BE it enacted by Parliament in the Sixtieth Year of the Republic of India as follows:—

1. (1) This Act may be called the Transplantation of Human Organs (Amendment) Act, 2009.

(kb) the manner of registration of the non-governmental organisations, registered societies, charitable trusts and such other entities under sub-section (5) of section 14;".

STATEMENT OF OBJECTS AND REASONS

The Transplantation of Human Organs Act, 1994 came into force on the 4th day of February, 1995 in the States of Goa, Himachal Pradesh and Maharashtra and all the Union territories. Thereafter, it has been adopted by all the States except the States of Jammu and Kashmir and Andhra Pradesh which have enacted their own legislation to regulate transplantation of human organs. The main purpose of the Act is to regulate the removal, storage and transplantation of human organs for therapeutic purposes and to prevent commercial dealings in human organs.

2. It has been observed that despite having put into place a regulatory mechanism for transplantation of human organs, there has been a spate of reports in the print and electronic media about thriving human organ trade in India and the consequential exploitation of economically weaker sections of the society. There has, therefore, been an increasing perception in civil society that the said Act has not been effective in curbing commercial transactions in organ transplant and thwarted genuine cases due to the complicated and long drawn process of organ donation,

3. On the above issue, Hon'ble High Court of Delhi in its judgment dated 6-9-2004 in W.P. No. 813 of 2004 Balbir Singh vs. Union of India and Others constituted a committee to examine the lacunae in implementation of the said Act. The recommendations of the said Committee were examined along with the recommendations of the Rajiv Gandhi Foundation. The draft guiding principles of the organ transplantation prepared by the World Health Organisation were also taken into consideration and after wide consultation, the administrative Ministry proposes to amend the said Act.

4. The amendments proposed, *inter alia*, are as follows:—

(i) presently the said Act regulates transplantation of the human organs, it has been proposed that the said Act also regulate the transplantation of tissues of the human body. Therefore, it is proposed to amend the long title, short title of the Act and also to insert appropriate definition of "tissues" in the definition clause and consequential amendments in other sections of the Act;

(ii) to expand the definition of "near relative" in order to include the grandfather, grandmother, grandson and granddaughter as near relative;

(iii) amendment of section 3 with a view to make mandatory for the Intensive Care Unit or Treating Medical Staff to request relatives of brain dead patients for organ donation and to provide for the enucleating of corneas by a trained technician. Further to enable a surgeon or a physician and an anaesthetist or intensivist to be included in the medical board in the event of non-availability of a neurosurgeon or neurologist for certification of brain death;

(iv) amendment of section 9 to regulate the transplantation of organs for foreign nationals, to prevent the exploitation of minors, to provide for Swap Donations of organs, to empower the Central Government to prescribe the composition of Authorisation Committees and to empower State Governments and Union territories to set up their own Authorisation Committees;

(v) insertion of a new section 13A to constitute the Advisory Committees to advise the Appropriate Authorities;

(vi) insertion of a new section 13B to empower the Appropriate Authorities to summon persons, seek production of documents, issue search warrants, etc.;

(vii) insertion of new section 13C to establish a National Human Organs and Tissues Removal and Storage Network;

(viii) to provide for the development and maintenance of a national registry of the recipients of human organs transplants;

(ix) amendment of section 14 to appoint a “transplant coordinator” in all hospitals registered for organ retrieval and transplantation; and to provide for the registration of non-governmental organisations working in the field of organ retrieval, banking and transplantation;

(x) amendment of sections 18, 19 and 20 to enhance the penalties provided under the Act; and

(xi) consequential amendment in section 24 in respect of the rule making power of the Central Government.

5. The Bill seeks to achieve the above objectives.

NEW DELHI;

The 17th November, 2009.

GHULAM NABI AZAD.

PRESIDENT'S RECOMMENDATION UNDER ARTICLE 117 OF
THE CONSTITUTION OF INDIA

[Copy of letter No. S.12011/13/2007—MS dated the 30th November, 2009 from Shri Ghulam Nabi Azad, Minister of Health and Family Welfare to the Secretary-General, Lok Sabha.]

The President, having been informed of the subject matter of the proposed Transplantation of Human Organs (Amendment) Bill, 2009 recommends to the House the consideration of the Bill under article 117(3) of the Constitution.

FINANCIAL MEMORANDUM

Clause 8 of the Bill, *inter alia*, seeks to insert section 13C which empowers the Central Government to establish a National Human Organs and Tissues Removal and Storage Network that links organ retrieval and transplant centres to facilitate exchange of information about availability of organs and data base of recipients which holds the key to the success of any transplant programme. A similar role was expected of Organ Retrieval and Banking Organisation (ORBO). However, experience indicates that ORBO has got confined to the All India Institute of Medical Sciences, Delhi only. Therefore, the need has been felt for the establishment of a nationwide network to maintain a waiting list of patients awaiting transplantation through computerised network and data base. The expenditure on account of procurement and maintenance of electronic equipments and setting up of network with the State Government will have to be borne by the Central Government. The Bill, if enacted, would involve expenditure from the Consolidated Fund of India which may be of both recurring and non-recurring in nature. The estimated total expenditure per annum will be to the tune of rupees five crore.

MEMORANDUM REGARDING DELEGATED LEGISLATION

Sub-clause (a) of clause 6 of the Bill seeks to insert a new sub-section (1A) in section 3 which empowers the Central Government to prescribe human organs or tissues or both for the purpose of their removal, storage or transplantation, the manner in which the hospitals will be required to inform in writing to the Human Organ Removal Centre for removal, storage or transplantation of human organs or tissues or both of the donor and also the date from which duties mentioned in clauses (i) to (iii) of sub-section (1A) are to apply in the case of a registered medical practitioner working in an Intensive Care Unit of a hospital which is not registered under this Act.

Sub-clause (b) of clause 6 of the Bill seeks to insert a proviso to sub-section (4) of section 3 which empower the Central Government to prescribe qualifications and experience of the technicians to be authorised to remove corneas.

Sub-clause (c) of clause 6 of the Bill seeks to insert proviso after clause (iii) to sub-section (6) of section 3 to prescribe the conditions for the nomination by a registered medical practitioner of a surgeon or a physician and an anaesthetist or intensivist to be included in the Board of medical experts to certify brain-stem death of a person for the purpose of removal of human organs or tissues or both.

Sub-clause (a) of clause 7 of the Bill seeks to insert sub-section (1B) in section 9 which empowers the Central Government to prescribe the manner of removal of organs or tissues or both from the body of a minor before his death for the purpose of transplantation.

Sub-clause (c) of clause 7 of the Bill seeks to amend sub-section (4) of section 9 which empowers the Central Government to prescribe the composition of Authorisation Committee and empowers the State Governments and the Union territories to notify the constitution and terms and conditions of the Authorisation Committees.

Clause 8 of the Bill seeks to insert a new section 13A to the Act which empowers the Central Government and the State Governments to notify the constitution of the Advisory Committee and the Central Government to prescribe the terms and conditions, for appointment to the Advisory Committee to aid and advise the Appropriate Authority in the discharge of its functions.

Clause 8 of the Bill seeks to insert a new section 13B to the Act which empowers the Central Government to prescribe other matters where the Appropriate Authorities can exercise the powers of a civil court.

Clause 8 of the Bill seeks to insert a new section 13C to the Act which empowers the Central Government to notify the establishment of National Human Organs and Tissues Removal and Storage Network and to prescribe the manner of establishment thereof and the functions to be performed by such a Network.

Clause 8 of the Bill seeks to insert a new section 13D to the Act which empowers the Central Government to maintain a national registry of donors and recipients of human organs and tissues and to prescribe information for such registry for an ongoing evaluation of the scientific and clinical status of human organs and tissues.

Clause 9 of the Bill seeks to insert sub-sections (4) and (5) in section 14 which empowers the Central Government to prescribe the qualifications and experience required of the person for his appointment as a transplant coordinator; and to prescribe the manner for registration of non-governmental organisations, registered societies, charitable trusts and such other entities that are engaged in transplantation of human organs and tissues for therapeutic purposes.

The matters in respect of which notifications may be issued or rules to be made under the aforesaid provisions pertain to procedure or administrative detail and it is not practicable to provide for them in the Bill itself, the delegation of legislative power is therefore of a normal character.

The rules made under the said provisions shall be laid before each House of Parliament.

BILL NO. 141 OF 2009

(b) sub-section (3) shall be omitted;

(c) in sub-section (4), for the words "by the State Bank", the words "by the Board of Directors of a subsidiary bank" shall be substituted.

STATEMENT OF OBJECTS AND REASONS

The transfer of ownership of the State Bank of India from the Reserve Bank of India to the Central Government was carried out pursuant to the coming into force of the State Bank of India (Amendment) Act, 2007 (30 of 2007). There are certain provisions in the State Bank of India (Subsidiary Banks) Act, 1959 and the State Bank of Hyderabad Act, 1956 dealing with the approval of or consultation with the Reserve Bank of India (in the capacity as owner of State Bank of India) in the management and functioning of the subsidiary banks. Due to the change in the ownership, those provisions need to be suitably modified to reflect the change in ownership. Further, the change of ownership in the State Bank of India also necessitate following consequential changes in the aforesaid Acts. The Bill proposes to amend the said two Acts, *inter alia*, to—

(a) confer power on the Central Government instead of the Reserve Bank of India, but after consultation with the Reserve Bank of India, to approve:—

(i) increase or reduction of the authorised capital of a subsidiary bank;

(ii) fixation of the issued capital of subsidiary banks by the State Bank of India;

(iii) raising of issued capital by preferential allotment or private placement or public issue by the subsidiary banks;

(iv) issuing of bonus shares to the existing equity shareholders;

(v) permitting the Chairman of the State Bank of India to nominate an official of the State Bank of India or the subsidiary bank as the Chairman of the Board of a subsidiary bank;

(vi) appointment of the Managing Director, fixation of the term of the office, salary and allowances and removal of the Managing Director;

(vii) supersession of the Board of Directors of subsidiary banks in public interest or for depositors' interest or for securing the proper management of the subsidiary banks on the recommendation of the Reserve Bank of India and appointment of an administrator and a committee to assist the administrator; and

(viii) making of regulation by the Board of the subsidiary banks;

(b) confer power on the Central Government in place of the Reserve Bank of India under section 31 to approve the removal from office of directors nominated and elected under clauses (c) and (d) respectively, of sub-section (1) of section 25 of the State Bank of India (Subsidiary Banks) Act, 1959.

2. The Bill seeks to achieve the above objectives.
